Education

The University of Toronto   Toronto, ON
Bachelor of Science in Computer Science, Minors in Mathematics, and Religion   *Sep. 2021 – Apr 2025*
CGPA: 3.80/4.00
Awards: Dean's List Scholar 2022, 2023, 2024; Innis Later Life Learning Award ($900) 2022, 2023
Coursework: Operating Systems, Algorithm Design, Data Structures, Systems Programming, Databases

Skills

Languages: C, C#, Python, Java, SQL (Postgres), JavaScript, HTML/CSS, Haskell
Libraries/Frameworks: Pytest, Kafka, Kibana/Elasticsearch, Django, React
Developer Tools: GitHub/Git, Postman, Azure, AWS, Jira, Confluence

Professional Experience

Software Engineering Intern   May 2024 – Current
Manulife Financial Corporation   *Toronto, ON*
- Support the cloud solutions architecture team in selecting a infrastructure backup solution.

Software Development Intern   May 2023 – August 2023
Bell Canada   *Toronto, ON*
- Spearheaded a project to reduce residential internet outage minutes on business and residential customers.
- Created an algorithm and implemented a **Python** script to check downed service routers and to automate their recovery process, diagnosing the service routers with NSP API.
- Used **Kafka Offset Explorer** to inject alarm messages into testing environment and then view messages in **Kibana** to validate code. Ran tests on preproduction code as well using **Postman** and NSP API.
- Participated in agile development cycles, code reviews, devops methodology, and CI/CD.

Leadership

President   April 2024 – Current
Innis College Student Society, University of Toronto   *Toronto, ON*
- Direct and oversee the operations of the rest of the council of 20 council members.
- Represent the Innis College student body of over 2200 students at biweekly meetings with staff.

Clubs & Merchandise Director   April 2022 – April 2024
Innis College Student Society, University of Toronto   *Toronto, ON*
- Ordered, and sold over $8000 worth of Innis College-related merchandise annually.
- Manage budgets and provide support for events for 5 clubs that 100s of Innis College students participate in.

Peer Mentor, First-year Learning Communities - Computer Science   September 2022 – April 2024
Department of Computer Science, University of Toronto   *Toronto, ON*
- Facilitated biweekly study seminars on topics such as calculus proofs or job networking for 35 first-year students.

Projects

PetPal | *HTML, CSS, JavaScript, Django, React*   September 2023 – December 2023
- Created a pet adoption webapp in a group of 4 students.
- Built webpages from scratch using **HTML**, **CSS**, and **JavaScript**.
- Backend API was implemented using **Django** REST framework, **React** was used for the frontend to connect the HTML pages to the backend

Newtonian Apples (NewHacks 2023 project) | *C#, Unity Engine*   November 2023
- Created a webapp to promote interactive physics learning, including 3 modules that simulated common physics questions; taking in user input to model different situations of the same type of question.
- Developed the 2D kinematics web module in **Unity Engine**, using **C#** to implement realistic physics trajectories for projectile launch, as well as adjusting the projectile trajectory depending on user input.

Home Server | *Server and Network Configuration, Unix*   May 2023
- Built a multi-purpose home server that served as a network drive on my home network, and as a Minecraft server that anyone on external networks could connect to.
- Configured the FreeBSD **Unix**-like server operating system to enable desired features, as well as port forward network traffic to make services externally available.
